

Immunization Requirements for the 2024 - 2025 School Year

K.A.R. 28-1-20 defines immunizations required for any individual who attends school or a childcare program operated by a school. Below are the requirements for the indicated school year. Please carefully review the requirements. The usual number of doses required are listed; however there are exceptional circumstances that could alter the number of doses a child needs. If you have questions about your child's immunization status, contact your child's primary care provider or local health department.

Proof of receiving the required immunizations must be provided to the school prior to the student attending the first day of school.

Vaccine	Requirement
Tdap (tetanus, diphtheria, pertussis)	1 dose~
IPV (polio)	4 doses***
MMR (measles, mumps, rubella)	2 doses
Varicella (chickenpox)	2 doses*
Hepatitis A NEW FOR GRADES 11 & 12	2 doses
Hepatitis B	3 doses
Meningococcal (MenACWY)	1-2 doses <i>See below:</i>

Students entering 11th and 12th grades:

Two doses of MenACWY are required. One dose is required before entering 7th grade and one dose is required before entering 11th grade.

If an adolescent 16-18 years old has never received a previous dose of MenACWY, only one dose is required for school attendance and the series is considered complete.

Notes

* Varicella (chickenpox) vaccine is not required if child has had disease **and** disease is documented by physician signature. Without a physician signature, vaccine is still required even if you believe your child has had chickenpox disease.

** Total doses needed depend on vaccine type and child's age when doses were administered.

*** Three doses are acceptable if the 3rd dose was given after 4 years of age, and there are at least 6 months between the second and third doses.

~ All students in grades 7-12 must have one dose of Tdap regardless of the interval since the last dose of DTaP or Td.
